

Privacy Statement for iOS App

Overview

This Privacy Policy describes how your personal information is handled by SmartCulTour on iOS and Android.

We collect no personal information using our application

SmartCulTour does not collect, use, store, or require access to personal data on your mobile device.

Settings and actions taken inside SmartCulTour client do not include any personal information. Any information sent between SmartCulTour players are purely gameplay related, and do not include any personally identifiable information. This data is merely used to perform actions inside the game.

There is no chat function or direct contact between users available inside of the game. Any contact between the players is solely performed outside of the SmartCulTour Application, and no data from this contact can be gathered by SmartCulTour.

The only identifiable form of data sent is the user-provided name when logging in to the application. This name is also used to reconnect the player in case the connection is lost.

Unity

SmartCulTour has been developed using the Unity Game Engine, a third-party software solution by Unity Technologies. SmartCulTour has no control over possible data-storage performed by Unity Technologies. Please visit the Unity3D Privacy Policy website for further information and questions about Data Collection by Unity Technologies: <https://unity3d.com/legal/privacy-policy>

Photon

SmartCulTour uses Photon for connecting player devices, this third-party software solution by Photon Engine. This solution is used for connecting players to the moderator, and for sharing actions & data between devices. For more information on Photon's privacy statement, please visit:

<https://dashboard.photonengine.com/en/Account/PrivacyAndCookiePolicy>

Children's Online Privacy Protection Act

SmartCulTour does not collect any personal information from anyone, including children under the age of 13.
